

## Olafur F. Gunnarsson

Principal, Greenlight BTS, LLC  
New York, New York

Olafur (Oli) Gunnarsson is an experienced business man and technology consultant. He offers a strong background in various ERP packages, platforms, relational databases and languages including: Windows NT, AS/400, OS/2, Novell, DB2, MSSQL, MS-Access, RPG, Pascal, C, Java, Lotus Notes, and MS-Project.

Since 1986, Gunnarsson has applied his passion for technology to business needs when he founded a software development house with fellow students at the University of Iceland. During those early years in his career, Gunnarsson also taught computer science at the University and then quickly entered the business market as a computer scientist for two Icelandic companies, Slippstöðin hf and Kerfi hf. (System, Inc.).

He left Iceland in 1994 to begin his consulting career for a number of U.S. based companies including Coldwater Seafood Corp, Arc Partners, Inc. and Caliber Solutions, LLP. In these roles, Gunnarsson gained a variety of business technology experience including strategic technology planning, needs assessment, ERP software implementation, project management of large scale implementations and development programs, integrated security modules for corporations with international operations. Perhaps the highest profile consulting engagement Gunnarsson engaged was the design of a technology plan to retrieve \$20M of lost revenue for the New York Stock Exchange.

In 1999, Gunnarsson founded OFG Consulting, Inc. in New York City. Over the course of the next six years, he built a client base of companies from a variety of industry sectors providing integrated business and technology consulting services. His expertise in business process design and technology solutions helped his clients address issues arising from rapid growth and acquisition to the pressures of global competition.

Gunnarsson earned his MBA in Finance from the Graduate School of Business, Fordham University, New York, NY, where he graduated with high marks earning him an induction into the Beta Gamma Sigma fraternity (National Business Honor Society). His Bachelor of Science degree in Computer Science was awarded by the Engineering and Science Department of the University of Iceland, Reykjavik, Iceland.

Gunnarsson's personal life includes interests in classical music, reading, fly fishing, competitive long-distance running and skiing.
