aXTend™ Shipper Integration

Simple. Powerful. Affordable.

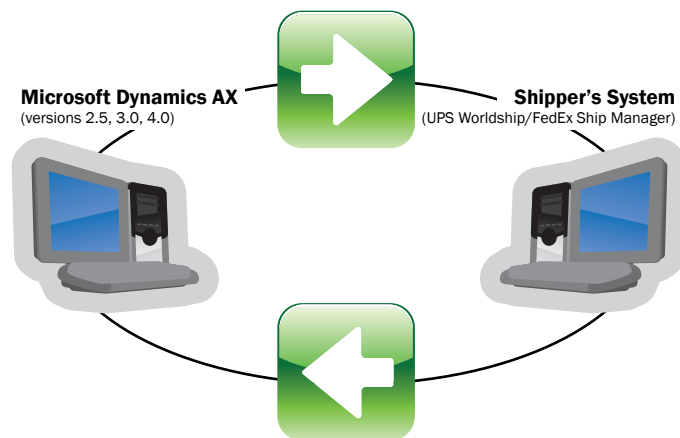

It's Dynamics™ AX...how you want it.

If you're running Dynamics AX and you ship with UPS or FedEx, then you need aXTend Shipper Integration.

- **SEAMLESSLY INTEGRATE** into UPS Worldship™ and FedEx Ship Manager® desktop software
- **REDUCE ERRORS:** Eliminates duplicate data entry by sharing relevant shipping information (e.g. ship to address, bill to address, type of service, etc.) with your shipping software
- **IMPROVE INFORMATION SHARING:** Gain direct access to critical freight charges and package tracking information from inside Dynamics AX
- **INCREASE EFFICIENCY:** Streamline time consuming tasks by automatically applying freight charges to sales orders

UPS WorldShip and FedEx Ship Manager are full featured, Windows-based, shipping software applications for businesses with medium-to-high volume shipping needs.

aXTend Shipper Integration extends base functionality in Dynamics AX allowing you to integrate WorldShip and Ship Manager with your ERP. This integration helps you streamline shipping operations, automate accounting processes, and empower customer service.

aXTend Shipper Integration allows you to:

- ✓ Accurately capture pertinent shipping information from inside Dynamics AX
- ✓ Securely expose it to UPS WorldShip or FedEx Ship Manager
- ✓ Automatically apply freight and handling charges
- ✓ Track shipments directly from within Dynamics AX

aXTend Shipper Integration is a product of Greenlight BTS. To learn more or to schedule a demo, visit www.greenlightbts.com.

Screen Shots

The image shows two screenshots from the UPS WorldShip software. On the left is a 'Packing slip' for a shipment from Lamps US Inc. to Lamps US Inc. The slip includes details like shipment number (0001_041ms), date (2/19/2008), and a shipping cost of 17.42. On the right is the 'Enter import key' dialog box and the main 'UPS WorldShip' application window. The application window shows a form for entering shipment details, including customer information, address (3200 Whitehaven Street, Marietta, GA), and service options like 'UPS Freight' and '3 Day Select'. A shipping cost of 17.42 is displayed at the bottom right of the application window.

Seamless Integration into Worldship/Ship Manager
 aXtend Shipper Integration enables you to easily integrate into Worldship / Ship Manager using standard integration utilities supported by UPS and FedEx.

The image shows two screenshots from the Dynamics AX software. The top screenshot displays a sales order for '00090_036' with a status of 'Delivered'. Below it is a table of 'Misc. charges transactions' with columns for transaction text, category, and amount. The bottom screenshot shows a 'Misc. charges' menu with options like 'Sales tax', 'Payment schedule', and 'Alt. address'.

Automatically Apply Freight Charges
 aXtend Shipper Integration automatically applies freight, insurance, handling, and COD charges to sales orders as miscellaneous charges.

The image shows two screenshots. On the left is a screenshot from Dynamics AX showing a 'Shipments' list with columns for shipment ID, sales order, package tracking number, and name. On the right is a screenshot of the 'UPS Tracking Information' website showing tracking details for a specific shipment, including the tracking number (12 948 354 NY 426 881 3), status (Delivered), and delivery date (02/09/2008).

Shipment Tracking
 Enable your sales and customer service teams to track shipments directly from inside Dynamics AX.

The image shows a screenshot of the 'Accounts receivable (ax)' menu structure in Dynamics AX. The menu includes options like 'Sales order', 'Sales quotation', 'Print text invoice', and 'aXtend Shipper Integration'.

Menu Structure
 aXtend Shipper Integration integrates directly into your Dynamics AX instance.
